

## Washing Instructions

### Original, Nest, and Basic Beds

- 1) Unzip the cover to remove the filled inner liner. The Nest outer bolster may be unzipped to remove its filled liner too.
- 2) Unzip filled inner liner.
- 3) Remove the SmartFill.
- 4) The outer cover and empty inner liner may be washed in your home washing machine or at a laundromat.
- 5) **We recommend that SmartFill be washed and dried at a laundromat. It should be washed loose, separately from the outer cover and inner liner.**
- 6) All parts may be washed in warm water using a gentle soap that will not irritate your pet's coat.
- 7) Tumble dry on low heat. Do not over-dry.

If you purchased your bed between 2001 and 2007, it probably contains fleece scraps. These beds can be washed as above. We recommend that the fleece scraps be washed and dried at a laundromat separately from the outer cover and empty inner liner.

### Catalina Beds, Doodle Toys, and Landing Pads

**Catalina Bed:** separate the cushion from the outer bolster before washing these components.

**Landing Pad:** remove the inner pad from the outer cover before washing these components.

- 1) These products may be washed in your home washing machine or at a laundromat.
- 2) Machine wash warm using a gentle soap that will not irritate your pet's coat.
- 3) Tumble dry on low heat. Do not over-dry.
